COSMOPOLITAN PS

CETEC COLLECTION

Being cosmopolitan is a state of mind, an attitude and way of living. It means to be open minded, to be a world citizen and not being limited by borders. This very much reflects the way we live today, how inspiration and interior design trends arise all over the world. Many different cultural backgrounds and influences merge to an international taste and design. This is all about the collection COSMOPOLITAN PS; adding PS which stands for "**Performance & Style**" underlines the high level of quality, design and durability.

Using quality textiles has strong impact on creating an individual and comfortable living space - no matter if in a residential or hospitality environment. These fabrics are designed to add a touch of everyday luxury and comfort to any interior.

COLOMBO

A playful eclectic highlight of the collection. With a sequin embroidery, the all-over stripes and dots pattern is an intricate sequins stitchery. The high quality can only be realized in detail and crafted technique.

SEQUENCE

SEQUENCE

The undeniable highlight of this Collection. A very delicate detail is the all over embroidery, using 5 different yarn colors.

MOON

MOON

A delicate jacquard in transparent quality. A simple but impressive pattern, the design is made from circles, or better from ring shapes that are placed all-over the double width fabric.

MARBLE
