INTER/CONTINENTAL CETEC COLLECTION

Frequent traveling changes our way of living and gives major influence on nowadays interior design trends.

The theme of the collection refers very much to a mayor influence on all our lives: international and intercontinental traveling and living. Never before traveling was so easy and naturally integrated in our daily lives. But this also influences the way we live and what we expect from our homes, hotels and temporary apartments. INTER/CONTINENTAL precisely describes the influences coming from different continents and cultures.

Exclusively developed by Cetec and mostly produced by traditional European weaving mills, there is a clear focus on high quality, exclusive design and coloring. All fabrics are woven on modern looms and in up-to-date techniques. While balancing between western and eastern interior trends, these fabrics are designed to add a touch of everyday luxury to any interior.
