## OUR WARMEST RECOMMENDATIONS FOR THE WINTER

In order to feel good at home, it should always be warm and cozy – especially in the colder months. With our ADO Thermal fabrics you can look forward to a warm winter more than ever. While the temperatures are dropping outside, ADO Thermal fabrics keep your home toasty warm while at the same time reducing your heating costs. Thanks to the wide range of designs and colorways, the very sight of them will warm the cockles of your heart. Their soft touch and feel also appeal to our senses ensuring a super cozy atmosphere.

Effectively  
minimizes  
heating costs

## ENERGY SAVER AND HEAT INSULATOR IN ONE

Winter will have a hard time getting past us! Our ADO Thermal fabrics are the optimal solution for ensuring that warmth doesn't escape through windows, doors or stairwells, effectively minimizing heating costs at the same time\*. Whether as a room divider, decorative curtain or to block out wind and cold - ADO Thermal fabrics with their unique fiber structure and high-density thread count will hold the winter at bay. In the summer the thermal fabrics have the opposite effect, ensuring that rooms don't become heated through the rays of the sun. On top of all that, the thermal fabrics also come with effective dimout properties as well as acoustic absorption of ambient sounds from outside.

\*Excellent heat insulation - tested and certified by the "Textilforschungsinstitut Thüringen-Vogtland e. V."

## FABRICS THAT PROVIDE TRANQUILITY

ADO Thermal fabrics are not just gorgeous to look at, they also bring a pleasant tranquility to your four walls. Thanks to their dense structure, they muffle annoying noises and echoes, reducing ambient noise in your home\*. Especially in the case of high ceilings and hard floors like tiling, parquet or laminate flooring the easy-care durable fabrics contribute to a pleasant acoustic in any room.

\*Sound absorption tests conducted by the independent "Hohenstein Institut für Textilinnovation GmbH" confirm a high degree of sound absorption.
