LIKE A DREAM

The Nobilis Panorama 2022 wallpaper collection takes you on a wondrous journey with pastel hues, abstract landscapes and fantastical motifs of sea creatures in flight. The French brand's latest offerings comprise an eclectic mix of styles, ranging from glamorous art deco elements to subtle nods to Japanese motifs and wistful impressionist paintings; perfect for creating a dreamy nursery or adding liveliness to a modern, neutral-hued living room. *Available from Cetec; cetek.com.hk*

ON A ROLL

Manufactured by Gubi, Danish designer Illum Wikkelsø's Croissant sofa lives up to its whimsical name with a curvaceous form inspired by the buttery French pastry. Supported by a solid oak frame, it features hand-stitched flat-piping that takes a leaf from traditional Chesterfield sofas; this three-seater design can be upholstered in leather or other textiles. *Available at Danish Design Co; danishdesignco.com.sg*

A NEW FUTURE

Crafted by Italian manufacturer Glas Italia using Murano glass pieces recycled from its production waste, the Simoon coffee tables by Patricia Urquiola show a beautiful way to design mindfully. The ground-glass pieces are made into 12mm-slim glass sheets that are then UV bonded together and finished in jewel-like hues that make each made-to-order table ever more beguiling; choose between the dark topaz or amethyst options. *Available at Space Furniture; spacefurniture.com.sg*
